

# PTT HITACK H

## High Viscosity Lubricant

### Descriptions

- *PTT HITACK H* : is high viscosity lubricant product produced from high-quality and high-viscous base oil. The product is added with extreme pressure (EP) additive for high load-carrying and long life service.

### Special Properties

- Outstanding extreme pressure characteristic, high load-carrying property and wear protection
- Reduce friction and heat
- Exceptional tackiness property, heat and water resistance with high working performance

### Application

- Lubricate open-gear system with high load-carrying and low speed
- Lubricate machine parts in which needs high viscous lubricant and tackiness property

### Reference Standards

### Typical Values

- |                           |       |
|---------------------------|-------|
| - Color                   | Black |
| - Viscosity @ 100 °C, cSt | 1150  |
| - Flash point (COC), °C   | 260   |
