

Process & General Purpose Lubricating Oil

Descriptions

- PTT PARAFEX 1000, 2000, 3000, 4000 : are used as raw materials for particular products, produced from high quality paraffinic base oils.

Special Properties

- Good thermal and oxidation stability.
- High viscosity index
- High flash point and low volatility.
- Exhibit good color stability.

Applications

- Suitable for use in production processes which have mineral oils as component of the products.
- Can be used as economical once through lubricating oils for light duty applications.
